Bank Robbery in Uvalde.

First State Bank at Uvalde robbed of \$6,185 in green backs Monday morning by a masked bandit. Lawrence Little, assistant cashier, James Anderson, a negro porter, were locked in the bank's vault. The armed bandit obtained his escape in a highpowered car. He is being pursued by a number of Uvalde officers. San Antonio and detectives joining in the chase. No arrest had been made up to

Little and the negro porter, threatened with death by the bandit during the hold up and forced by his commands. The report of the bandit was clad in a pair of overalls, which concealed his face, while his facial features were behind a comic mask. He appeared at the bank at 7:20 o'clock. The porter opened the doors of the vault and made him call the cashier by telephone. Learning that he was out of town the bandit ordered the cashier to call the assistant cashier, Lawrence Little, who arrived a few minutes later and being covered with a pistol in the masked man's hand. The bandit ordered both to go to the vault which was controlled by a time lock open at 8:30 o'clock. No words were spoken during the time of waiting but the two men were constantly guarded by the gun. Then Mr. Little handed out the stalk of currency. Learning that the Liberty Bonds were all registered, the bandit did not take them and two hundred dollars in silver he also threw being "too bulky" for him. He fled to the entrance and with a slam

shut the vault doors with the two men left inside.

Half an hour later Tom M. Nally, Jr., an employe of the bank, and son of the president of same, arrived, heard the faint cries and the pounding on the vault doors. He released the two men who had not suffered, and gave alarm.

Then the comic mask and the overalls were found in the rear of the bank, also a 32-calibre pistol besides the discarded garments. It is said that a number of residents noticed the bandit as he stepped into the automobile only a short distance from the bank.

Sheriff G. H. Johnson of Uvalde with deputies soon started after the bank robber and telephone messages were dispatched to officers of neighboring towns. Chief of Police Mussey and Detective Capt. Van Riper and a squad of other armed men of San Antonio started out on the road immediately upon receipt of the news.—S.A. Light. Pierre Guyon of Uvalde was arrested Friday morning charged with the robbery. He denies his guilt.

New School Opened.

The Catholic school opened on Tuesday, September 7, with an attendance of 22 children. It is held at the former Parish residence near the American Church and is under the direction of two sisters of Divine Providence.

The Parent-Teachers' Association will meet Monday afternoon at 4 o'clock at the school building.

Oil News.

Medina Oil Development Company is drilling around 400 feet. Had a good showing of oil from 142 feet to 360 feet and the material in which we are now drilling is blue shale with no showing of oil. The prospects are as good as we could ask for and we estimate that we have from five to ten barrels of oil cased off. We are very confident of striking more oil and expect to carry this well down to the Austin Chalk and in case we do not get any more, we shall come back and perforate the casing and test out what we have. Everything is working nicely and the well is in good shape to continue drilling. Mgr.

"Dies y Seis."

The Mexican population of Hondo and vicinity, so we are informed, will stage a four day's celebration, beginning, Thursday, September 16th and continue four days. The 16th of September is a notable day in Mexico, the adoption of the constitution of 1857 occurring on that date. We understand that a brass band has been engaged to furnish the music and a great time is anticipated by our citizens of Aztec birth.

Kellems-Gaines.

A quiet wedding was solemnized Saturday at two o'clock in San Antonio when Miss Clara Gaines became the bride of Mr. Geo. W. Kellems of Kelley Field, only the intermediate family of the bride being present. Judge Robertson performed the ceremony after which the bride and groom were guests at a wedding dinner at the Menger. Following the reception Mr. and Mrs. Kellems left for their home at Kelley Field, where Mr. Kellems is temporarily stationed as master electrician in the air service.

Mrs. Kellems was attired in a tailored suit of navy blue serge with hat and other accessories to match.

Stroud-Favor.

Mr. Geo. W. Stroud and Miss Belva Favor were happily married at the Methodist parsonage Monday, Sept. 6th, 1920, Rev. J. M. Alexander performing the ceremony. Mr. Stroud is employed by the Southwestern Telephone Co. and is to be congratulated on winning so lovely a girl for his bride. The young couple left immediately after the ceremony for a wedding trip east. They have a host of friends here who wish for them much happiness as they journey through life.

Celebrates 59th Birthday.

A very pleasant surprise was given Mrs. F. L. Graff Sunday, Sept. 5th, the occasion being her 59th birthday. The immediate family and a few friends were present to express congratulations and best wishes. A real old fashioned dinner with barbecued mutton, turkey and "everything" was served to the following:

Mr. and Mrs. F. L. Graff, Mrs. Emma Graff, Mr. and Mrs. Joe Mechler, Mr. and Mrs. Aug. Garteiser, Mr. and Mrs. Hy. Scheele, Mr. and Mrs. Geo. Graff and family, Mr. and Mrs. L. A. ED. HUEHNER, LOCAL REPRESENTATIVE

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

Died.

Mr. Louis Haller, the oldest pioneer settler of our little burg, peacefully passed away Tuesday morning, Aug. 31, 1920, and was laid to rest at the Saint Louis Catholic Cemetery on Wednesday morning, after a Requiem Mass; Rev. Father Heckmann performed the last sad rites.

Deceased was born at Saint Amarin, Alsace-Lorraine, Aug. 24, 1831, consequently was 89 years and six days of age at the time of demise. As a youth of only thirteen or fourteen years he came to this country with his parents, one brother and one sister.

Shortly after the close of the civil war he was happily married to Miss Leonie Naegelin (who preceded him in death nearly two years ago). This union was blessed with fourteen children, of which eight, six sons and two daughters, survive. Besides those mentioned, deceased is survived by six grandchildren, one sister, Mrs. Emily Naegelin, of this place, and a large number of other near and dear relatives to mourn his loss. A large concourse of mourning relatives and friends followed the remains to their last resting place. We join in sympathy with the bereaved and grief-stricken ones. R. I. P.

The Irish Lord Mayor MacSwiney, who is held in Brixton prison at London for sympathizing with the Irish cause for independence, and who has refused to take any food for four weeks in prison, was reported very weak Tuesday, in fact a dying man. The report says that every morning food in some form or other is brought in by the prison authorities and offered to the starving prisoner in the hope that his almost uncontrollable craving will master him and that he will be tempted to eat. Every morning there is the same end to the act—MacSwiney, who is too weak to utter a spoken refusal, crushes his desire and turns his head away. So it has gone on until the 25th day of his hunger strike has been reached.

A Pleasant Day.

Early last Wednesday morning Mr. and Mrs. Willie Burger and son, Mr. and Mrs. Willie Brucks, Mr. and Mrs. Henry Meyer and children, Mr. and Mrs. Ad. Haby and Mr. and Mrs. Willie Meyer and children, left their homes for a trip to the Medina River, above Castroville with the intention of having a good time picnicking and fishing. At about 9 o'clock they reached their destination and were met there by Mr. and Mrs. Chas. Haby, Misses Isabella and Cecilia Haby, Alvina and Mina Wurzbach and Mr. Paul Haby.

After fishing awhile dinner was spread under those beautiful shady pecan trees in a most elaborate style and was enjoyed by all. After dinner fishing was taken up by some again while the rest whiled away the happy hours in boating, bathing and singing until a late hour when they left for their homes tired, but having had a pleasant time.

As to how many fish they caught is kept secret—of course they left a few there for another such day.

LITTLE FISHER MAIDEN.

T. H. McGregor, the candidate for Governor of the American party, believes that men as well as women will be entitled to vote in the November election without a poll tax. He claims that the suffrage amendment to the Federal Constitution repeals the poll tax provisions of the Texas Constitution and thinks it would be discrimination to permit one class of citizen to vote without paying a poll tax, and deny that privilege to another class.

Doctor Cup

That love sometimes cures a case is a fact that has been called to the attention of the public by prominent physician. Love is, however, the cure for all women. Many a woman is nervous, irritable, feels dragged down, worn out for no reason that can think of.

Doctor Pierce's Favorite Prescription gives new life and strength to weak, worn-out, run-down women. "Favorite Prescription" makes weak women strong and sick women well. It is now sold by all druggists in the United States in tablets as well as liquid form.

EVANT, TEXAS.—"I have used Doctor Pierce's Favorite Prescription. I was run-down and suffered from functional disturbances but 'Favorite Prescription' regulated me. I was so nervous I was miserable and could not sleep at night when I began to use the 'Prescription' I had not taken a whole bottle and could sleep well and got as stout as ever was. I keep a bottle of 'Prescription' on hand and when I work get tired I take a dose and it strengthens my nerves." — MRS. GEORGE DEMERIS BERRY

Look Out for the Milk Strike!

Milk production steadily runs down during the summer because pasture does not supply the balance required for full milk production. Purina Cow Chow balances summer pasture and keeps cows at top production. The extra milk much more than pays for the Chow.

Green feeds lack protein. They are largely water and it takes many pounds of green feed to equal one pound of concentrates. It would take twice as much roughage as a cow's stomach

can hold to make her produce to full capacity, without draining her system. As grass dries out a slump in the milk flow is sure to come, unless you balance the pasture with a grain concentrate.

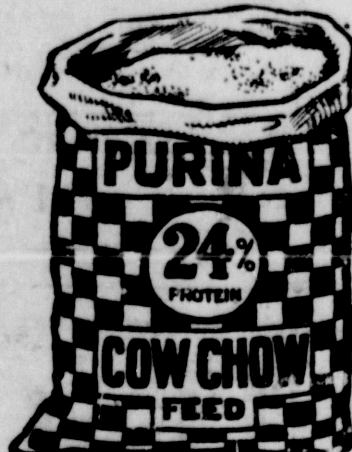

Purina Cow Chow

is rich in protein and minerals that balance pasture and forage crops.

The extra milk will pay for the Chow and net a large extra profit.

TWO AND A HALF MILLION COME TO HOLDERS OF THIRD LOAN BONDS NEXT MONTH

Dallas, Texas.—Owners of Liberty Bonds of the third issue, bearing 4½% interest, according to Dinsmore W. Hume, Federal Director of Savings, number 719,210 in this district. The total value of Liberty Bonds bought in the district was \$116,210,050. The interest thereon at 4½% will be due and payable at any bank on September 15; it will amount to \$2,469,462.50 for this, the eleventh reserve district, according to Mr. Hume. A like amount of interest on the same bonds will be paid in six months later, on March 15, 1921. Because It's For One Thing Only, and Hondo People Appreciate This.

Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Hondo evidence to prove their worth.

Mrs. X. Wantz, Hondo, says: "My kidneys were disordered for some time. A dull bearing down pain appeared in my back which greatly increased until I had to give up. I couldn't stoop over or straighten up again without severe pain. I saw Doan's Kidney Pills advertised and bought some at Martin's Drug Store. From the start Doan's did me good and I gladly recommend them to others." (Statement given May 29, 1915).

On May 3, 1919, Mrs. Wantz said: "I think just as much of Doan's Kidney Pills today as when I gave my former statement. I have had no occasion to use them since, for the cure they worked then has proven permanent."

Motor Signs in Death Valley.

Death valley, once the terror of the traveler in the Southwest, is being made safe for motoring both day and night. The Automobile Club of Southern California is placing signs in such manner that the rays of headlights from passing machines will fall upon them and guide the night tourist safely.

Signs are also being placed on the route to picturesque Palm canyon, on the edge of the desert—one of the most unique spots in the world. It is planned to make this oasis in the sandy wastes a national reservation by the government.

A cross, sickly baby suffering from digestive troubles and looseness of the bowels needs McGee's Baby Elixir. It checks the bowels, eases the stomach and restores healthy conditions. Price, 5c and 60c. Sold by W. H. Windrow.

A Living Packing House.

Interest in what pure bred stock means has been justified by the results obtained by C. W. Deal, of Crystal City, in hog raising. He specializes in the Spotted Poland Chinas, and he has a sow that has produced just 3,600 pounds of meat during the year of 1920, which began some eight months ago. He keeps a careful account of his feed bills and at the current high prices his pork is costing him a trifle under four cents a pound.

There's some profit in growing hogs that makes a turn-out like that. The National Association of Spotted Poland China Breeders has selected the Deal Herd to represent them at the Dallas Fair, and the only place they will be exhibited elsewhere this year will be at the Crystal City Pure Bred Stock Show, to be held Sept. 30 and Oct. 1. There are only six breeders of registered Spotted Poland Chinas in the state.

Abilene, Tex., Sept. 6.—The deep well, which was drilled over two years ago and so far has been quite a disappointment, is now flowing. The well is owned by the city and was drilled two years ago to the depth of 2,700 feet in hopes of striking artesian water or even oil. The water had to be forced out by means of a gasoline engine for the use of the town. Last Saturday afternoon, when the man intended to start the engine he was surprised to see the water flowing out of the well nicely.—Ex.

Ride Farther on Goodyear Tires in Your Small Car

It is tire performance, not price, that decides what you really pay; hence, do not experiment with tires made to sell at sensationally low prices.

You can secure in Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, a high relative value not exceeded even in the famous Goodyear Cord Tires on the world's finest automobiles.

Goodyear experience and care are applied to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; take advantage of the opportunity to get true Goodyear mileage and economy.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less grade—why risk costly casings when such sure protection is available? \$4.50 30 x 3½ size in waterproof bag

How to Choose a Watch

THE display in our window will help you to "fit yourself" to a watch. That is, to choose a watch exactly suited to your needs and your pocketbook.

It shows the different Ingersolls—including Radiolites, jeweled watches and special models—and makes definite suggestions. Then come in and we'll help you select.

The Philathea Class.

The Philathea Class met at the home of Mrs. O. A. Fly Tuesday afternoon at four o'clock.

Though only a few members were present interest was not lacking.

It being the time for election of officers the Bible study was omitted and only a business meeting was held which proved interesting in every way.

After the election of officers our president read the duties of all officers and committees.

The new officers for the ensuing year are as follows: Mrs. O. A. Fly, president; Miss Bertha Newton, vice-president; Mrs. Earl Boon, secretary and treasurer; Mrs. J. G. Newton, press reporter.

The committees appointed were: Mrs. O. H. Fly, Mrs. B. Merriwether, Mrs. Ralph Russel, membership committee.

Mrs. Roland Chancey, Miss Bertha Newton, Miss Willie Dee Fly, social committee.

Mrs. J. S. Fly, Mrs. J. A. Horger, Mrs. J. G. Newton, devotional committee.

The motto: "With love serve one another" was chosen for the class.

After all business was over Mrs. Fly, assisted by Miss Ruth Fly, served delicious refreshments consisting of cake and ice cream.

Let us renew our Bible study in earnest and make this the best year of the class.

"I Spent \$1 on Rat-Snap and Saved the Price of a Hog."

James McGuire, famous Hog Raiser of New Jersey, says, "I advise every farmer troubled with rats to use RAT-SNAP. Tried everything to get rid of rats. Spent \$1 on RAT-SNAP. Figured the rats it killed saved the price of a hog." RAT-SNAP comes in cake form. No mixing with other food. Cats or dogs won't touch it. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by W. H. Windrow and Holloway Bros.

Notice to Tenants

The Medina Valley Irrigation Company has irrigable lands for rent at \$7.00 an acre, with \$1.00 an acre additional for farms with improvements thereon; and water at \$5.00 per acre. If you want to be sure of making a crop in 1921, rent an irrigated farm. It is good insurance. We encourage a good tenant to rent large tracts and farm them by sub tenants under his personal control. If you want irrigated land, make your application now in person to R. U. Atkins, Supt., Natalia, Texas. 4-4t.

Phelps is acknowledged the leader

Every where the "Phelps" is found the entire neighborhood unanimously give it first place. Here is why:

1500 watt generator gives double the usual electric power and light. 3 1/2 h. p. belt pulley does a dozen chores too heavy for the ordinary plant. Its cost is no more than that of plants that do LESS THAN HALF THE WORK. When you buy insist on a plant that

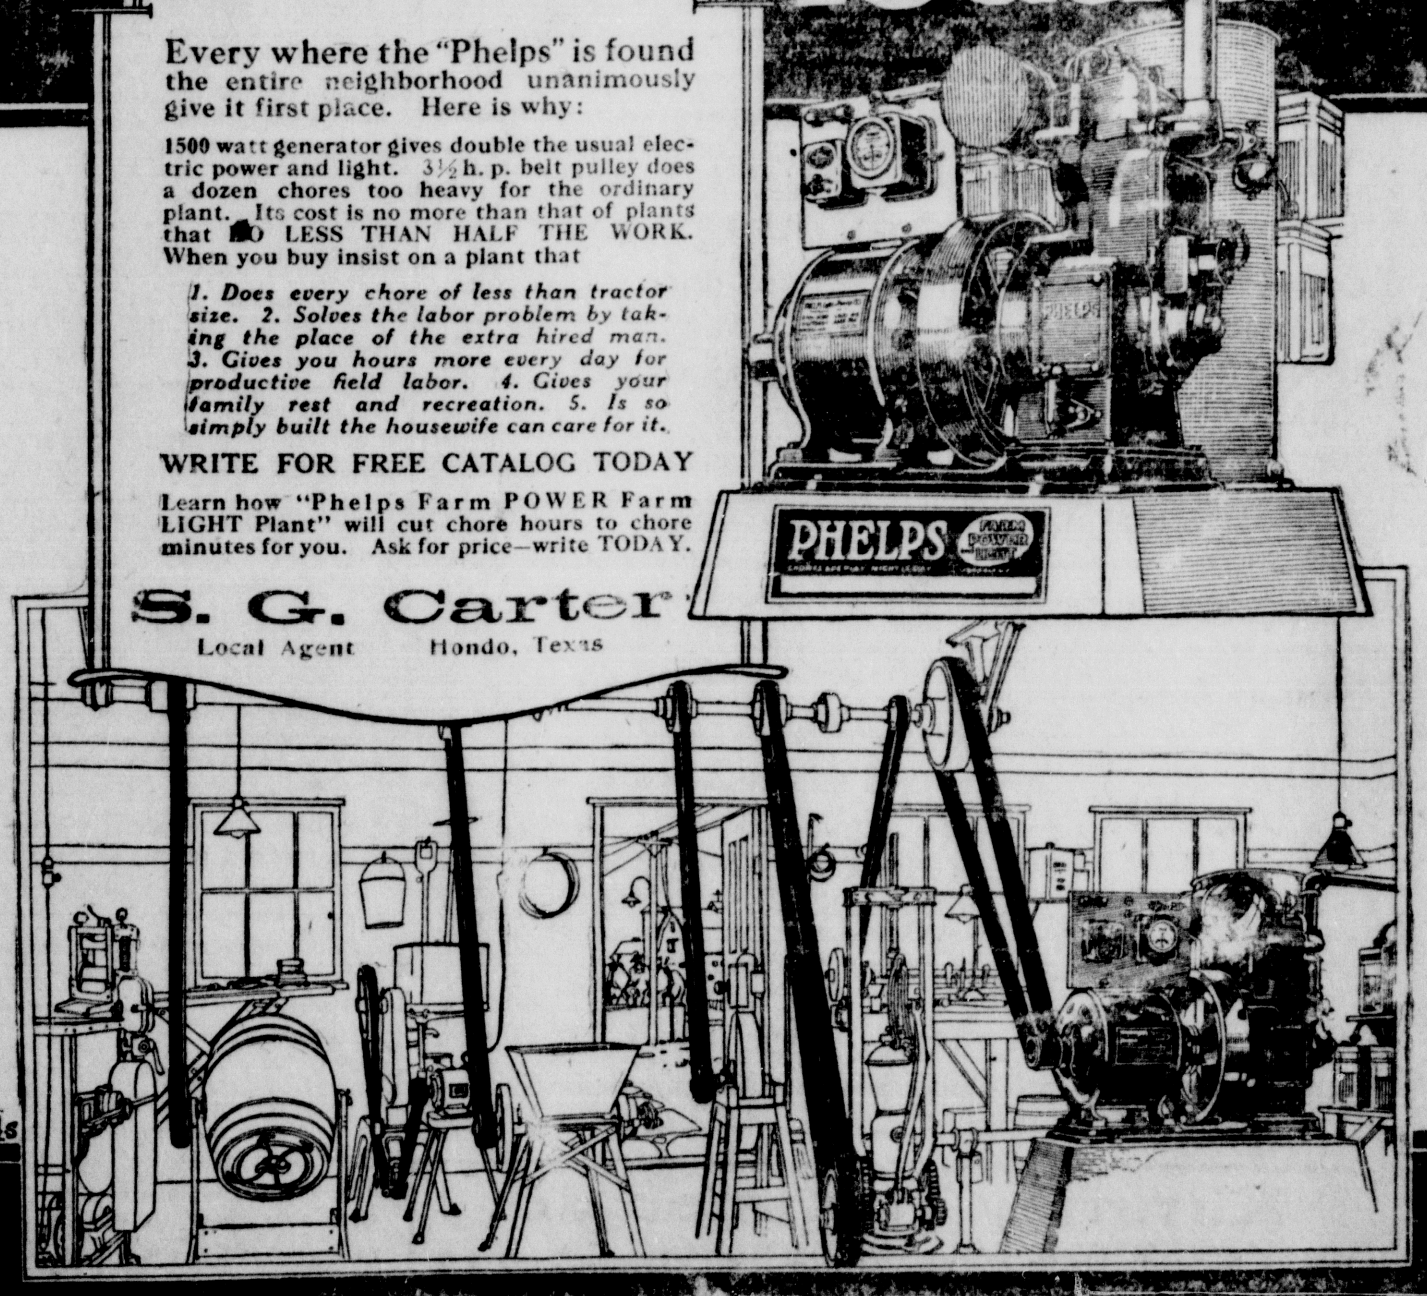

1. Does every chore of less than tractor size.
2. Solves the labor problem by taking the place of the extra hired man.
3. Gives you hours more every day for productive field labor.
4. Gives your family rest and recreation.
5. Is so simply built the housewife can care for it.

SHOWED SIGNS OF TIPPLING

Hens' Behavior Caused English Youngster to Be Doubtful of Good Character of Vicinity.

Johnny recently paid his first visit to his aunt's farm in England. The little boy had not been there long before he came running to her in great excitement.

"Aunt," he exclaimed, with the air of one imparting grave news, "I don't think this is a very nice place!"

"Why, what makes you think that, Johnny?" was her amused reply.

"Well, aunt, the public houses (saloons) open very early," was the startling rejoinder. "Nearly all your hens have the hiccoughs already this morning."

Real Optimist.

Mark Tapley may have been some pumpkins as an optimist, but he had nothing on a tall Kentuckian, who worked for Tom Dodge in a Kentucky oil district. The men slept in a bunkhouse that was built of green oak and the boards had shrunk and left spaces between them that you could see through.

It was terribly cold one night and the covers were thin and some of the men were complaining about the open spaces in the walls.

"Oh, well," said the big Kentuckian as he rolled over and prepared to pound his ear, "they's one good thing about sleepin' in here. You don't hev to git out of bed to throw the cat out."—Cincinnati Enquirer.

Putting It Up to Mother.

Helen, whose father was the final arbiter of the family, went to her mother for permission to do something she feared her father would disapprove.

"Ask your father," said the mother, "and if he says you may, it will be all right."

"Oh, mamma," said Helen, "won't you ask him? You're so much better acquainted with him than I am."

Out of Luck.

Upon my return from calling one afternoon I ran into my mother's. My sister opened the door for me, and without looking into the living room, I blurted out: "Gee, I had the best luck! Four of them were not at home!" When I went in there sat the four playing cards with my mother. My embarrassing moment has lasted ever since that day.—Chicago Tribune.

The Usual Thing.

"Sir," thundered Senator Blawhew, "day and night, from every stump and hustling, I have denounced in no uncertain tones the merciless rapacity of the soulless profiteers, and—"

"But," we asked, "what have you done about it?"

"Done? Heavens above! Haven't I just said I denounced it?"—Kansas City Star.

Modest and Reserved.

Stymie—Hazzard made the ninth hole in three and he's spent the rest of the day boring every one with descriptions of each shot.

Greene—Some fellows are long-winded. Now I made eighteen shots at that same hole and no one has heard me mention any one of 'em.

BOOKER T. WASHINGTON'S DAUGHTER URGES NEGROES TO EARN, SAVE, INVEST

Dallas, Texas.—Portia Washington Pittman, daughter of the noted negro leader, Booker T. Washington, wife of W. Sidney Pittman, a negro architect in Dallas, insists that now is the time when negroes, above all others, should earn, save a part of their earnings, and invest in government securities. "Negroes are now earning more than ever before in their lives," she said. "They should save and invest it so it will comfort and give them the things they need so much when we are old or sick or death overtakes them. The War Savings Stamp and the Registered Treasury certificates are absolutely safe investments and make their owners better citizens."

Read What U. S. Dept. of Agriculture Says About What Two Rats Can Do.

According to government figures, two rats breeding continually for three years produce 359,709,482 individual rats. Act when you see the first rat, don't wait. RAT-SNAP is the surest, cleanest, most convenient exterminator. No mixing with other foods. Dries up after killing—leaves no smell. Cats or dogs won't touch it. Sold and guaranteed by W. H. Windrow and Holloway Bros.

No Wonder.

"There goes a man who can't bottle up his wrath when he speaks of prohibition."

"Did he drink?"

"No, but he did make cork screws."

Owners of horses and blooded stock are large users of Liquid Borozone. It heals wounds, festering sores, barbed wire cuts by a mild power that leaves no disfiguring scars. Price, 30c, 60c and \$1.20. Sold by W. H. Windrow.

Color to Show Denominations.

The treasury department at Washington is now working on a proposition to mark bills of various denominations with a standardized color seal, so that anyone can recognize notes of different denominations at a glance. The plan, suggested by a Philadelphia druggist, is to have a colored seal in one corner of the bill, for instance, a green seal for a one, a pink seal for a two, a blue seal for a five, and so on. Treasury officials, however, dislike the idea of using different dyes.

For skin eruptions, rash, chafed skin, prickly heat, chigger bites and stings of poisonous insects, Ballard's Snow Liniment is an effective application. It heals quickly. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by W. H. Windrow.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy complexion, indicate poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

BEAUTIFUL EFFECTS OF DEW

Especially in Freezing Weather Do the
Minute Drops Form Spectacle
Pleasing to the Eye.

A countryside covered with dew is
one of the most beautiful sights which
the eye of man ever perceived. Here-
ward Carrington writes in Leslie's.
"Dewy Eve" is no mere figment of the
poet's imagination, since the dew al-
ways "falls" after sundown. As a mat-
ter of fact, however, the dew does not
"fall" at all, but is deposited as the
sun sets and as the surface of the
earth, and everything upon it, begins
to cool. It is very curious and inter-
esting—this precipitation, for the
pearly dewdrops form upon the leaves
of trees, the blades of grass, the fine
hairs on the caterpillar and on every-
thing which is fine and pointed. The
reason why we sometimes have a de-
posit of dew in the evening, at "the
end of a perfect (summer) day" is
that on these days the humidity is
high, or the amount of moisture in the
atmosphere excessive. If it is dry,
there is no dew, but if there is much
moisture in the air, we have this phe-
nomenon. During the daytime, when
the sun is shining, its rays keep the
tiny particles of moisture dancing
about at high speed; they do not have
a chance to "settle" anywhere; they
are in constant agitation, like boiling
water. But when the sun has set, this
"dance of the atoms" (of moisture)
slows down; their agitation becomes
less; and they tend to be deposited on
vegetation, leaves, grass, etc., every-
where. Especially is this the case with
all finely pointed substances, such as a
spider's web. Then we have the most
beautiful effects. If the weather be-
comes excessively cold—below the
freezing point—during the precipitation
of the dew—then the minute
drops of water will freeze into tiny
crystals of ice, and then we have "hoar
frost" covering the leaves, the grass
and the countryside. This is one of
the most beautiful sights in nature.
Fog is caused by somewhat similar at-
mospheric conditions—when the air is
heavily laden with moisture, and a
tiny drop of water adheres to each
particle of dust which we see in the at-
mosphere, dancing about merrily in the
sunbeam. Experiments by Sir Oliver
Lodge showed that, up to a certain
point, fog could be dispersed by elec-
tric waves. If the air be dry, and the
electric current very powerful, the
dust particles become redhot and glow
with white heat; and this is the cause
of the lightning flash which we see in
the sky. The "visible" lightning really
consists of a series of dust particles
in the path of the electric discharge
which have been heated to white heat.
The moisture in the air is the cause of
"humidity," dampness, Scotch mist,
and finally rain; and if it is very cold
at the time, we have snow, sleet and
hail instead—frozen rain.

Analyzing Waste Food.
America leads all other nations in
analyzing the value of the foods we
eat and the best way to make them
nourish us. Scientists have found that
we often get little of the real value
of our foods so that a great deal goes
to waste. It is exactly as if we took
just one squeeze out of a juicy orange
and then threw it away. The new sci-
ence has been developed largely since
the outbreak of the war. Many inter-
esting experiments have been carried
on in Teachers' college in New York
which are being watched by scientists
all over the world. Some tests are
made with white rats, others with hu-
man beings. The war department
has utilized this information in fix-
ing the rations for our soldiers. In a
few years people will look back upon
our wasteful, unscientific habits of to-
day with amazement.—Boys' Life.

Bad Boy, Aged Forty-Five.
A Philadelphia minister has picked
the "foolish age" of man as forty-five
years, when he is most likely to sow
his wild oats, get divorced and go to
the bowwows generally. It is a con-
solation to be assured that for 15 years
more we shall continue to exercise
our traditional sanity and virtue, but
just the same, the Old Nick in us
prompts us to look forward with con-
siderable anticipation to our forty-
fifth birthday.—The Home Sector.

A Little Lesson.
"I went into a shop to have my
shoes mended and sat on the same seat
with a millionaire."
"Rich and poor are patronizing the
cobbler nowadays."
"But he was more particular about
having the work done right than I
was."
"That trait of his is probably what
made him a millionaire."—Birmingham
Age-Herald.

VALUES IT MORE THAN A FORTUNE

Power Gains Eighteen Pounds—
Rheumatism Disappears
After Taking Tanlac.

"What Tanlac has done for me is
worth more than a fortune," said
George Power, of 20 1/2 Rottenberg St.,
a life-long resident of Halifax, Nova
Scotia, and well-known employee of the
Nova Scotia Tram and Power Co. "I
have gained eighteen pounds and feel
better than for twenty-eight long
years, he continued.

"I don't believe anybody in the
world suffered from rheumatism as
bad as I did. It was a sharp, shooting
pain that would go through my knees,
down my legs and into my ankles just
like somebody was sticking a knife
through me. I couldn't work at all in
damp weather and suffered so intense-
ly I would turn white as a sheet.
When the attacks came on I wouldn't
be able to sleep a wink, my joints
would swell and my knees would get
stiff as boards and I wouldn't be able
to walk for two or three days at a
time—just lay up in bed flat on my
back.

"Tanalac was so highly recommended
by people right here in Halifax that I
tried it and now I wouldn't take any-
thing in the world for the good it has
done me. My rheumatism is entirely
gone, my appetite has picked up, too,
and I sleep fine every night, and feel
like a different man altogether. Tan-
lac is the greatest thing I have ever
seen and I want to let everybody
know what this wonderful medicine
will do."

Tanalac is sold in Hondo by W. H.
Windrow; in Castrovilla by Joseph
Courand & Co.; and in Dunlay by Louis

Washington, Sept. 5 — Air mail ser-
vice between New York and San Fran-
cisco will be inaugurated Wednesday,
the first planes leaving each terminus
at 5:30 a. m., local time.

Complete plans and schedules for
the coast-to-coast service, announced
today by the postoffice department,
show that the mail planes from New
York to San Francisco are expected
to make the trip in 56 1/2 hours, elapsed
time, and the San Francisco to New
York planes in 60 1/2 hours, elapsed
time. Mail sent by train from New
York to San Francisco reaches the
latter city in about 100 hours, and
San Francisco mail arrives by train in
about 96 hours.

Metal monoplanes with a cruising
radius of ten hours at ninety miles an
hour will be operated between New
York and Omaha, with a single stop
at Chicago. De Haviland "four"
planes, with four hours' fuel and oil,
at eighty miles an hour, will be used
between Omaha and San Francisco.
Stations between the two terminals
will be Cleveland, Chicago, Iowa City,
Omaha, North Platte, Neb.; Cheyenne,
Rock Springs, Salt Lake City, and
Elko and Reno, Nev.

Pointing out that inauguration of
the new service will extend the air
mail service over 1,463 miles of new
territory, the postoffice department
in its announcement added:

"With the establishment of the
transcontinental air mail there will be
at the service of the United States
military forces what is probably the
greatest system of regularly main-
tained landing fields and facilities in
the world, a system that will enable
the movement of air fleets from ocean
to ocean with large landing fields and
fueling and repair facilities approx-
imately every 200 miles."

Now is a good time to buy. The New

Accommodating.
"Stop—hey, stop!" yelled an excited looking farmer, running toward the road as we passed in our car. My friend put on the brakes and ran back to give first aid, when the farmer turned and beckoned frantically to a little boy who came from the house to the road and then close to the car. "Look it over," said his father as the boy walked all around us, "this running machine is called an auto."
"All right," said the boy at last. "I saw enough of it," and we were allowed to proceed.—Exchange.

Too Literal.
"Did you hear about the defacement of Mr. Skinner's tombstone?" asked Mr. Jones a few days after the funeral of that eminent captain of industry.
"No, what was it?" inquired the neighbor, curiously.
"Some one added the word 'friends' to the epitaph."
"What was the epitaph?"
"He did his best."

TIME MAKES LITTLE CHANGE

Booth Tarkington Relates Anecdote to Show How Characteristics Prevail to the End.

Novelist Booth Tarkington was talking about the cowardly attack that a gang of Germans had made on a solitary French officer in the restaurant of the Hotel Adlon in Berlin.

"The Germans," he said, "were unspeakable in the beginning, and they will be unspeakable to the end."

He shook his head thoughtfully.

"People can't change," he said.

"Henry Labouchere was born a fearless wit, and a fearless wit he died. A few hours before his death, you know, Labouchere's nephew upset a tiny spirit lamp that was burning by the bedside. The dying man awoke out of a fitful doze and saw the miniature conflagration.

"Flames?" he said. "Not yet, I think."

"And he laughed quizzically and dozed again."

A Boulevard Deputy Sheriff.

The other day we dropped into our favorite garage for a few minor repairs, which the bus needed. The proprietor was even a little prouder than usual, we thought.

"What's happened to the boss," said we to Fat.

"Haven't you heard?" he asked.

"No. What is it?"

"He's a deputy sheriff now. Hey, boss, come on over here and show your badge."

A garage proprietor and a deputy sheriff all at once! If anybody can beat that for arrogance and pomp and lordly authority and a supreme sense of superiority outside of Prussia, we'd like to hear about it.

Ready for Emergency Work.

The mobile disaster unit is a recently formed branch of the American Red Cross which is completely organized and ready to respond instantly in case of a serious accident or disaster. The headquarters of this body are at Boston, and the membership consists of several hundred persons scattered around New England who stand ready to answer any call. It includes doctors, nurses and assistants, a complete 200-bed hospital with all the essentials, such as clothing, food, medicines and X-ray apparatus, with everything which could be called for, even to the garbage and ash cans. The details of this organization are said to be so complete that it could be moved within one hour's time from the receipt of the call.

One Friend Less.

One of my most embarrassing moments came soon after I was married, when I met an old acquaintance and begged to know why she had never yet been to call upon me. Rather coldly she replied, "I did not know that you wished me to, as I received no announcement of your marriage." Rather horrified and embarrassed to think she had been forgotten when the lists were made up, I lost my head and blurted out: "Oh, but you know we only sent those to our friends." Naturally after that I had one friend less.—Chicago Tribune.

Neighbor—When I cemented the back yard I sowed some seed and they came after it and got caught in the fresh cement.

TO MAKE BORDEAUX MIXTURE

American Forestry Association Gives Directions for Preparation of Great Enemy of Plant Diseases.

That ever-popular bordeaux mixture is great stuff for plant diseases, says the American Forestry association in directing how to care for plants. Often it is the case that you will want to combine insecticides with fungicides in spraying, the association points out, and bordeaux mixture is the thing. However, it should be remembered that bordeaux mixture is not fatal to insects but is an effective control for various types of fungous disease. Here is the combination for making the mixture:

Copper sulphate, blue stone or blue vitriol, 3 ounces.

Lump lime or hydrated lime, 3 ounces.

Water, 2½ gallons.

Procure the ingredients at a drug or seed store. If lump lime is used, it must be fresh. Instead of lump lime, some prefer fresh hydrated lime. This is lime to which enough water to dry-slake it has been added. It is a powder and does not require slaking. Use containers of wood, glass or earthenware. In one container dissolve the copper sulphate in about one-half gallon of hot water and then dilute with enough cold water to make a total of 1½ gallons; or wrap the copper sulphate in a small piece of cheese-cloth, fill a quart jar with cold water and suspend the copper sulphate in the top of the water; in a couple of hours it will be dissolved. In another vessel slake the lime and dilute with enough water to make 1½ gallons. If hydrated lime is used, simply mix it with water. Then pour these two solutions together, pouring the solution of copper sulphate slowly into the mixture of lime and water, stirring vigorously while this process is under way. The stirring insures proper mixing.

JUST ACTING LIKE A MAN

Simple Explanation of Wife's Action When She Suspected Burglar Was Downstairs.

After starting for his work the other morning Taylor happened to think of something he had forgotten and returned to the house to get it.

While walking about the kitchen he heard a great racket upstairs. Considerably alarmed he called:

"What in the world is the matter, Mary? Has anything happened?"

There was a moment's silence, then his wife replied:

"Oh, is that you?"

"Yes, who did you think it was?"

"I heard someone walking about down there and I thought it was a burglar."

"But the noise—"

"I was making a lot of noise so that he would think there was a man in the house."

Electrical Hair Cutting.

There is in use in France an electric substitute for the barber's scissors. It consists of a comb carrying along one side of its row of teeth a platinum wire through which flows an electric current. As the comb passes through the locks to be shorn the heated wire instantaneously severs the hairs, leaving them of even length and sealing the cut ends as in the ordinary process of singeing with a taper.

Brought Sad Memories.

Mrs. Wells—Yes, siree, the cook refused to drive out in our car when I offered it to her.

Mr. Good—What excuse did she give?

Mrs. Wells—Said she wouldn't ride unless it was a self-starter, as cranking it reminded her so much of a washing machine.

Weary.

"I don't complain about high prices any more."

"Why not?"

"I've just got tired of hearing the perfectly good excuse any tradesman can offer for soaking the life out of me."

Woman Wants to Be Fire Fighter.

Firm in her belief that the era has passed when men were looked upon as superior to women in regard to hard work, Mrs. Pearl C. Stone of Holliston, Mass., has applied for a stationary fireman's license, the first woman in Massachusetts to ask for such a permit.

Weaving for Disabled Men.
It is reported from Great Britain that various textile manufacturers and the General Union of Textile Workers have put forward for consideration a scheme whereby unemployed disabled ex-service men will be trained in weaving. It is proposed that during the first ten weeks of training each man should receive £2 from the government and £1 from the employer; during the subsequent four weeks £3 from the employer or such higher amount as the worker may be able to earn. It is believed that ten weeks would be sufficient to make the men efficient—Scientific American.

Certain unscrupulous bottlers are offering for sale soda water, bottled in bottles bearing our name and trade marks—and we beg to caution our dealers, customers, and others, to accept no bottled soda water, bottled in bottles bearing our name and address, except from us.

BOTTLERS, WHO ARE AFRAID, FOR SOME REASON, TO SELL THEIR GOODS UNDER THEIR OWN NAME, OR BRANDS, DO NOT DESERVE PUBLIC CONFIDENCE.

For the protection of the consumer, the Federal Pure Food Law requires that all containers, packages, boxes, cans, BOTTLES, etc., containing FOOD and DRINK, offered for human consumption, shall bear the true name and address of the manufacturer or bottler, of such FOOD and DRINK.

All we ask is a square deal—you believe in fair play—so please help us overcome this evil practice of deceiving the consumer and abusing our brands and name, by refusing to buy or sell bottled goods, put up by any bottler, who is afraid to assume the responsibility of selling his goods in bottles, branded with HIS OWN NAME AND ADDRESS.

OUR PRODUCTS—COCA-COLA, DELAWARE PUNCH, ORANGE and LEMON CRUSH, and BUCK BRAND Soda Waters, are bottled in strict conformity with all PURE FOOD LAWS—and are guaranteed pure and wholesome, within the broadest meaning of these terms.
